

Boost your sales with the most attractive pop-up solution

A visual impact in just a few steps. The assembly of the duo.blue is reduced to the minimum. Open the container, put up the frame with the connected magnetic bars and adjust the graphic panels. This is fast - very fast - without tools or parts to fit together.

The duo.blue is a self-locking pop-up frame available in straight or curved formats. The duo.blue is designed so that, without tools or tinkering, the frame can be expanded, reduced or reconfigured on the spot. With its sturdy framework and variety of accessories, duo.blue is perfect for displaying products. The duo.blue gives marketing message real interest with catchy graphics.

1. The duo.blue is a self-locking frame that pops up in seconds without connectors. Grasp the center hub and lift frame open to shoulder height. Handle frame at hub. Press front and back hub in the center of the frame until the duo.blue locks into position.
2. The magnetic bars are self-locked with bungee cord. Special polarized magnets 'snap' panels into perfect alignment giving a seamless looking backwall for graphics that are designed to impress.
3. Adjust the magnetic bars on the duo.blue by clipping their back on the exterior nodes.
4. The heads of the magnetic bars have two black pins where the notches of the graphic will fit. Fit the magnetized sides of the graphics on the magnetized bars, guiding them gently from top to bottom.
5. The floodlight can be inserted it on the special groove located on the head of the pole. This sliding-groove is an optimized hanging system.
6. The duo.blue case-to-counter conversion kit transforms the entire shipping case into a spacious and coordinated counter for presentations

YOU DESERVE THE ORIGINAL!
