

## Boost your sales with the most durable retractable banner display

### A visual impact in just a few steps

Lightweight, compact and effective, duo.match is your ultimate choice for your visual communication.

The duo.match unit is a **road-warrior** self-contained in a sturdy extruded aluminum case for transport or storage. The graphic is well protected, rolled-up inside the casing.

The assembly of the duo.match is reduced to the minimum. One minute to open the carry case, put up the pole and set up the graphic.

This is fast - very fast - without tools or parts to fit together.

1. The duo.match retractable banner system is designed in a unique extruded aluminum casing. The duo.match features 2 twisting stabilizing feet for perfect stability.
2. The road warrior is protected inside the casing in a bag. All components are transported at once with optimized compact dimension. The 3-piece shock-corded pole ensures the holding of the pole once extended
3. Insert the pole in the specific hole behind the casing.
4. The duo.match provides you with a 79" high streamlines design. Pull up the graphic.
5. The head of the pole offers a very easy set-up of the graphic. The top aluminum suspending hanger, glued on the graphic, is bend-resistant and prevents any edge curling effect.

The duo.match family gathers several standard sizes available: 33 3/8", 39 5/16" and 47 1/8"

Make an impact anywhere you need a big graphic in a small space.

Our duo.match is effective and a breeze to set up – simply raise the spring-loaded graphic panel from its base!  
The graphics give you sharp images and brilliant colors which are sure to bring attention to your marketing message. The graphic is protected during transportation and storage within the banner stand casing.

It is not a luxury to count on **THE ORIGINAL** duo.match
